

**CLINICAL SITE INFORMATION FORM (CSIF)**  
developed by  
**APTA Department of Physical Therapy Education**  
(revised 11-1-99)

**Why have a consistent Clinical Site Information Form?**

The primary purpose of this form is for Physical Therapist (PT) and Physical Therapist Assistant (PTA) academic programs to collect information from clinical education sites. This information will facilitate clinical site selection, student placements, assessment of learning experiences and clinical practice opportunities available to students; and provide assistance with completion of documentation for accreditation in clinical education.

**How is the form designed?**

The form is divided into two sections, [Information for Academic Programs - Part I](#) (pages 3-14) and [Information for Students - Part II](#) (pages 15-17), to allow ease in retrieval of information for academic programs and for students, especially if the academic program is using a database to manage the information. Duplication of information being requested is kept to a minimum except when separation of Part I and Part II of the form would omit critical information needed by both students and the academic program. The form is also designed using a check-off format wherever possible to reduce the amount of time required for completion. This instrument can be retrieved from APTA's website at [www.apta.org](http://www.apta.org). Simply select the link titled "PT Education", then the link titled "Clinical Education" and choose "Clinical Site Information Form".

Although using a computer to complete the form is not mandatory, it is highly recommended to facilitate legible updates with minimal time investment from your facility. Additionally, the information provided will be more legible to students, academic programs, and the APTA's Department of Physical Therapy Education. The form includes several features designed to streamline navigation, including a hyperlinked [index](#) on page 18. (Please note that several of the hyperlinks contained in the document require your computer to have an open internet connection and a web browser).

If you prefer to complete the form manually, you may download the CSIF from APTA's website (see above). If you do not have access to a computer for this purpose, hard copies of the CSIF are available from the APTA Department of Physical Therapy Education, as well as from all PT and PTA academic programs through their Academic Coordinator of Clinical Education (ACCE).

**What should I do once the form has been completed?**

We encourage you to invest the time to complete the form thoroughly and accurately. Once the form has been completed, the clinical education site may e-mail the instrument to each academic program with which it affiliates, minimizing administrative time and associated costs. **Please remember to make a copy of this form and retain for your records!** To assist in maintaining accurate and relevant information about your physical therapy service for academic programs and students, we encourage you to update this form on an annual basis

In addition, to develop and maintain an accurate and comprehensive national database of clinical education sites, we request that a copy of the completed form be e-mailed to the Department of Physical Therapy Education at [csif@apta.org](mailto:csif@apta.org) or mail to:

**American Physical Therapy Association**  
**Department of Physical Therapy Education**

Alexandria, Virginia 22314

## DIRECTIONS FOR COMPLETION:

### **If using a computer to complete this form:**

When completing this form, after opening the original form, and before entering your facility's information, **save the form**. The title should be your zip code, your site's name, and the date (eg, 90210BevHillsRehab10-26-99. Please note that the date must be set apart with dashes; if slashes are used, the computer will unsuccessfully search for a directory and return an error message). Saving the document will preserve the original copy on the disk or hard drive, allowing for you to easily update your information. When completing, use the tab key or arrow keys to move to the desired blank space (the form is comprised of a series of tables to enable use of the tab key for easier data entry). Enter relevant information only in blank spaces as appropriate to your clinical site.

### **What should I do if my physical therapy service is associated with multiple satellite sites that also provide clinical learning experiences?**

If your physical therapy service is associated with multiple satellite sites (for example, corporate hospital mergers) that offer clinical learning experiences, such as an acute care hospital that also provides clinical rotations at associated sport medicine and long-term care facilities, you will need to complete *pages 3 and 4*. On *page 3*, provide the primary clinical site for the clinical experience. On *page 4*, indicate other clinical sites or satellites associated with the primary clinical site. *Please note that if the individual facility information varies with each satellite site that offers a clinical experience, it will be necessary to duplicate a blank CSIF and complete the form for each satellite site that offers different clinical learning experiences.*

### **What should I do if specific items are not applicable to my clinical site or I need to further clarify a response?**

If specific items on the form do not apply to your clinical education site at the time you are completing the form, please leave the item blank. Opportunities to provide comments have been made available throughout the form.

22. What is the procedure for managing students with exceptional qualities that might affect clinical performance (eg, outstanding students, students with learning/performance deficits, learning disability, physically challenged, visually impaired)?

Each student will have time with their CI at the first of the affiliation to sit down and discuss specific learning objectives/challenges. The CIs have practiced and taught for many years and are able to work at different levels and

provide different learning experiences for each individual student. Students are provided a written manual, and 1 on 1 time with their CI. Students will observe clinical practice, will have procedures explained to them and then will get to complete the tasks.

This site and the physical therapists place a strong emphasis on differential diagnosis, manual therapy and clinical reasoning. All of the physical therapists have advanced degrees (MPT or DPT) and three have their orthopedic clinical specialist.

Students will be emailed a student intern packet to review before their schedule internship at the clinic. Please see our web site for more information: [www.ptcentral.org](http://www.ptcentral.org)

**23. Answer if the clinical center employs only one PT or PTA.** Explain what provisions are made for students if the clinical instructor is ill or away from the clinical site.

The student will work with another CI in the clinic. Usually another PT comes to the facility to cover the clinic if the original CI is on vacation or gone from the clinic.
